FOR IMMEDIATE RELEASE  
October 10, 2016

## SUSTAINABLE DEVELOPMENT WORKSHOP SCHEDULED

### Kuala Lumpur Workshop Scheduled for August 2017

*Kuala Lumpur, Malaysia, 10 October 10, 2016* – The Daniel Group is proud to announce the first in a series of three global workshops designed to help managers and urban planners develop actionable methods to achieve the United Nations Sustainable Development Goals.

Specifically, this workshop is focused on *Global Goal 11: Make Cities Inclusive, Safe, Resilient and Sustainable*.

**WHAT:** 3-Day Workshop Developing a Managed Approach to Achieving Sustainable Development Goals

**WHEN:** 15-17 August 2017

**WHERE:** Grand Hyatt, Kuala Lumpur, Malaysia

This workshop will provide participants a well-defined, auditable methodology to support their organizations as they transform into resilient, inclusive urban zones. Each person will gain a toolset for surveying the current environment, as well as key steps to take to build a future state that improves life and living for all. This workshop will be limited to 10 participants.

On September 25th 2015, UN member countries adopted a set of goals to end poverty, protect the planet, and ensure prosperity for all. These 17 sustainable development goals are collectively known as the “Global Goals”.

The Daniel Group is a global strategic management consulting firm with over 20 years of experience in government and commercial space. Clients include Fortune 5 companies, mid-tier industries, as well as federal, state, regional and local governments.
